State Spotlights

Baltimore Gas and Electric Company launched its ENERGY STAR for New Homes program on June 1, 2009. Since then, customers have saved **over \$57.7 million** in lifecycle energy costs through the more than 13,000 ENERGY STAR homes constructed. "We are pleased to partner with BGE and ENERGY STAR on a much needed upgrade to our facility in Edgewood. For us it is not simply to be more energy efficient, but also to lead and teach young people and families the benefit of smarter energy consumption. Thousands of young people will now have a brighter, safer place to go each day after school." – Tim Wills, Executive Director, Boys & Girls Clubs of Harford County
