

# PENNSYLVANIA

The simple choice for energy efficiency.

Updated April 2019

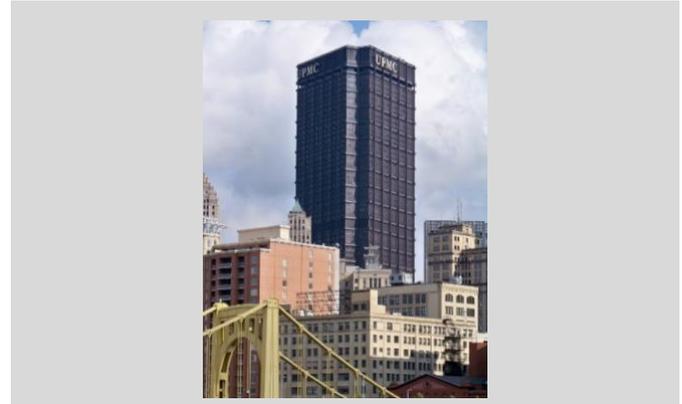

## Families and businesses are saving with the help of ENERGY STAR®

Pennsylvania is home to about **520** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

- 81** manufacturers of ENERGY STAR certified products
- 32** companies supporting independent certification of ENERGY STAR products and homes
- 83** companies building ENERGY STAR certified homes, 3 of which are committed to building 100% ENERGY STAR, as well as many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

### Across Pennsylvania

- 5.8 million customers** were served by ENERGY STAR utility partners in 2018
- 9,758 buildings** (more than 950 million square feet) were benchmarked in 2018 using EPA's ENERGY STAR Portfolio Manager
- 25,171 homes** have earned the ENERGY STAR
- 1,145 buildings** have earned the ENERGY STAR for superior efficiency, including 307 schools, 16 hotels, 7 hospitals, 304 office buildings and 4 industrial plants.

U.S. Steel Tower, Pittsburgh, PA. ENERGY STAR Certified in 2016.

### Recent ENERGY STAR Award Winner(s)

- Air King America, LLC
- Bimbo Bakeries USA, Inc.
- PECO Energy
- Ricoh USA, Inc.

### State Spotlights

Air King America offers one of the most complete lines of ENERGY STAR qualified ventilation products on the market including Bathroom Exhaust Fans, Continuous Operation Exhaust Fans, Inline Exhaust, Under Cabinet and Chimney Range Hoods.

*"It's an honor to be recognized again by the EPA for our innovative energy efficiency solutions that are helping our customers save energy and money every day."* – Craig Adams, President and CEO, PECO

SEPTA's Headquarters in Center City Philadelphia, built in 1972, represented an ongoing energy challenge for facility managers confronting the daily realities of a building constructed in an era of cheap energy prices and little regard for energy-efficient design. ENERGY STAR certification has aided building managers in overcoming this challenge.

*"Ricoh prides itself on efficiency and adaptability in the new world of work, and our partnership with ENERGY STAR plays a key role in that. We don't see business results at odds with sustainability: We see sustainability as an opportunity to better serve our planet as we find ways to better serve our customers. Sustainability is in our DNA, and we are proud to continue building on it today and into the future."* – Donna Venable, Executive Vice President, Ricoh Americas
