

WEST VIRGINIA

The simple choice for energy efficiency.

Updated April 2019

Families and businesses are saving with the help of ENERGY STAR®

West Virginia is home to about **40** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

- 9** manufacturers of ENERGY STAR certified products
- 2** companies supporting independent certification of ENERGY STAR products and homes
- 5** companies building ENERGY STAR certified homes, 3 of which are committed to building 100% ENERGY STAR, as well as many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

Across West Virginia

426 thousand customers were served by ENERGY STAR utility partners in 2018

714 buildings (almost 52 million square feet) were benchmarked in 2018 using EPA's ENERGY STAR Portfolio Manager

687 homes have earned the ENERGY STAR

130 buildings have earned the ENERGY STAR for superior efficiency, including 65 schools, 2 hospitals, 4 office buildings and 1 industrial plant.

Royal Vendors Inc, Kearneysville, WV. ENERGY STAR partner since 2004.

State Spotlights

Since April 2004, **Royal Vendors Inc.**'s equipment manufactured for use in the U.S and Canada has been ENERGY STAR® qualified. This means the products have been independently certified to save energy without sacrificing features or functionality. By using and building equipment that manages energy well, Royal Vendors helps their clients build a hedge against energy price volatility, availability and environmental risk.

"Through continuous improvement, good collaboration and sharing best practices, we continue to stay highly motivated to identify ways to minimize our impact to the environment. Our team members demonstrate that when good ideas are shared, great things can happen, and we are grateful to receive our tenth consecutive ENERGY STAR Partner of the Year – Sustained Excellence Award from the U.S. Environmental Protection Agency," – Robin Haugen, General Manager, Toyota
