

## Happy Father's Day from ENERGY STAR®

For Father's Day, dads are looking for ways to make all those household chores of parenthood easier. Products that have earned the [ENERGY STAR](#) label can make them easier AND better.

From dishwashers to clothes washers and dryers (and even electronics to help keep your kids busy while you get your chores done), ENERGY STAR certified products deliver energy and money savings PLUS they are good for the environment. That's because products that earn the ENERGY STAR are independently certified to meet strict energy-efficiency requirements set by the U.S. Environmental Protection Agency. ENERGY STAR certified products also employ a range of advanced technologies that also enhance performance.

Not convinced? Check out this father's experience. He's determined not to be a manservant on Father's Day and ENERGY STAR is helping.

Happy Father's Day from ENERGY STAR!

ENERGY STAR® is the simple choice for energy efficiency. For more than 25 years, people across America have looked to EPA's ENERGY STAR program for guidance on saving energy, saving money, and protecting the environment. Behind each blue label is a product, building, or home that is independently certified to use less energy and cause fewer of the emissions that contribute to climate change. Visit [www.energystar.gov](http://www.energystar.gov) today.
