

Tom Stimac is the Chief Innovation Manager for GE Lighting. Tom joined GE in 2001 designing LED systems, and over the years has taken on several roles including Product Safety and Regulatory Compliance, Senior Consulting Engineer and System Manager-LED Lamp. In his current role, Tom helps drive strategy, seamless cross-functional communication, and execution as more energy efficient and connected products are being developed -- and transforming the Consumer Lighting industry. Tom has a deep technical knowledge of LED systems and significant experience representing GE in industry organizations (ANSI, UL, NEMA, Zhaga). Tom holds both a Master's and Bachelor's degree in Electrical Engineering from Cleveland State University, and an MBA from Case Western Reserve University.
