

Tips for ENERGY STAR® submissions

Zach Mooney

Tips for Manufacturers to Streamline ENERGY STAR submissions

Applicants should familiarize themselves with the ENERGY STAR Program

- Understand what products do qualify for the ENERGY STAR mark
- Understand how requirements related to their products
- Understand what can qualify as a product family –
- Qualifying Luminaires: Maximizing Testing Investment By Using Product Families document – will be posted to the website shortly

Applicants need to apply to become an EPA partner

- Assurance that your company has a unique ID
- Assure that your company is listed under specific categories being submitting for

Tips for Manufacturers to Streamline ENERGY STAR submissions (continued)

Packaging artwork files

- Manufacturers to understand requirements

CB Report generation - Missing documentation which cause delays

- LM-80 Reports
- Safety Reports
- EMI/RFI (FCC) Reports
