The purpose of this document is to provide clarification about how the ENERGY STAR marks and ENERGY STAR name should be used in all mediums. These include, but are not limited to, print advertisements, Web sites, product catalogs, and specification sheets.

This document provides a partial list of guidelines, based on the most common misuses of the ENERGY STAR marks. Please note that this document is intended to supplement, rather than replace, the ENERGY STAR Brand Book. Please review the ENERGY STAR Brand Book in its entirety at www.energystar.gov/logouse.

This document also presents additional examples of common mark misuses and how each should be corrected, as well as how to report mark violations. The final section of this guide provides some helpful tips on how to write about ENERGY STAR.

The ENERGY STAR identity is a valuable asset, and like any asset with appreciable value, it must be properly used and protected. Partners should be mindful of how they use the ENERGY STAR marks in all communication and outreach materials. Ensuring that the marks are properly used protects every ENERGY STAR partner’s investment in the program—and consumer confidence in the ENERGY STAR brand.

WRITING ABOUT ENERGY STAR

The ENERGY STAR name should always appear in all capital letters and as two words. There should not be a dash between ENERGY and STAR.

The registered symbol ® must be used the first time the words “ENERGY STAR” appear within a print document or on a website. There should be no space between the words “ENERGY STAR” and the ® symbol and the ® symbol should always be in superscript.

When writing about ENERGY STAR, it is correct to state that a product, home, or building has “earned the ENERGY STAR” or is an “ENERGY STAR certified” product, home, or building. For example, it is acceptable to write either “ENERGY STAR certified TV” or “a TV that has earned the ENERGY STAR.”

When writing in social media platforms, do not use ENERGY STAR hashtags (e.g., #ENERGYSTAR) or ENERGY STAR conversation links in association with products, homes, or buildings that have not earned the ENERGY STAR. Do not use “ENERGY STAR” to create a Facebook page identity, Twitter handle, or URL.
