## OFFICE OF AIR AND RADIATION

Dear ENERGY STAR® Partner:

This summer are you sitting on the edge, about to jump in, considering a new ENERGY STAR certified pool pump incentive program? Or perhaps you want to make a splash and improve participation in your existing program?

**If so, make sure to join this upcoming webinar to learn about the latest innovations in pool pump program design.** Hear how program implementers have expanded and refined their pool pump incentive programs to take advantage of new ENERGY STAR certified above-ground pool pumps and midstream incentive structures. These new strategies will greatly reduce what can be the home's second largest energy use and save a homeowner up to \$445 per year!

The U.S. Environmental Protection Agency (EPA) invites you to participate in the following webinar:

**Webinar:** "Cutting Edge Pool Pump Programs: Above the Ground and Middle of the Stream"

**Date and Time:** Tuesday, June 11 from 1:00 – 2:00 PM Eastern

Please register [here](#).

Speakers:

- **Efficiency Vermont** is the first program in the nation to offer incentives for above-ground pool pumps.
- **CenterPoint Energy Texas** runs a unique midstream pool pump incentive program.
- **PoolCorp**, the nation's largest pool supply distributor, devotes resources to improving midstream pool pump programs.

We look forward to speaking with you!

Thank you for your continued support of the ENERGY STAR program.
