

## **Award Recipient of the ENERGY STAR Challenge for Industry**

**PepsiCo Indianapolis Hotfill Plant  
5858 Decatur Boulevard  
Indianapolis, IN 46241**

The Indianapolis Hotfill Plant is part of PepsiCo, and manufactures Gatorade, Propel, Sobe, and Lipton products.

The Indianapolis Hotfill Plant achieved the ENERGY STAR Challenge for Industry in July 2010. This plant achieved a 10.0% reduction from baseline energy intensity in one year. The site accomplished these energy savings through: improving startup/shutdown procedures, implementing a compressed air leak management program, reducing system steam pressure, and eliminating unneeded chilling capacity. Overall, the 10% reduction in energy intensity at the Indianapolis Hotfill Plant resulted in a savings of an estimated \$455M.
