

Award Recipient of the ENERGY STAR Challenge for Industry

Bainbridge, GA Facility
HWY 27 North
1251 Colquitt Highway
Bainbridge, GA 39817

The Bainbridge facility is located in the largest peanut producing region in the United States. This facility takes direct delivery of farmer stock peanuts and cleans, shells, sizes, inspects, blanches, roasts and packages them for sale to customers. The production line at the Bainbridge facility is almost entirely automated and has the capacity to shell approximately 120 million inshell pounds of peanuts annually. During fiscal 2010, the Bainbridge facility shelled approximately 47 million inshell pounds of peanuts.

The Bainbridge facility achieved the ENERGY STAR Challenge for Industry in 2010. This plant reached 16% reduction in energy intensity within two years of its baseline. The Bainbridge Plant achieved the Challenge through lighting upgrades, natural gas optimization and identifying and reducing compressed air leaks. Overall, the Bainbridge facility has reduced energy intensity by 316 kBTU per ton of nuts and snacks processed. This has resulted in a savings of 16,984 mmBtu in 2010.

John B. Sanfilippo & Son, Inc. (JBSS) maintains a comprehensive energy management program. Under this program, JBSS has progressively applied proven energy management practices promoted by ENERGY STAR including goal setting, project implementation and evaluating progress.
