

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

**OFFICE OF
AIR AND RADIATION**

January 22, 2014

Dear ENERGY STAR® TV Partner or Other Interested Stakeholder:

With this letter, the U.S. Environmental Protection Agency (EPA) is finalizing amendments to the ENERGY STAR® Televisions specification. This Version 6.1 specification now incorporates the Department of Energy's (DOE's) Final Rule on Test Procedures for Television Sets (hereafter referred to as the new DOE test procedure) for use when qualifying products.

EPA shared proposed amendments to the specification in a letter to stakeholders on December 2, 2013, and received one set of comments recommending limited edits to the definitions and luminance requirements to harmonize with the new DOE test procedure. EPA appreciates the feedback and has made the corrections.

Please contact me at Radulovic.Verena@epa.gov or (202) 343-9845, or Rachel Unger at Rachel.Unger@icfi.com or (202) 572-9446 with questions or concerns. For any questions pertaining to the test procedure, contact Jeremy Domm, DOE, at Jeremy.Domm@ee.doe.gov or (202) 586-9870.

Thank you for your continued support of ENERGY STAR.

Best Regards,

A handwritten signature in cursive script that reads "Verena Radulovic".
