

Summary and Response to Stakeholder Comments

ENERGY STAR Program Test Method for Determining Automatic Commercial Ice Makers (ACIM) Energy Use Version 2.0 Draft Final

Issue No.	Document Section	Topic	Subtopic	Comment	Response
1	Section 2	Scope	Remote Rack Connected (RCU) Units	One stakeholder commented that they agreed with DOE's proposal to include only RCU units designed for connection to remote rack compressors that are alternately sold (with the same model number) with a dedicated remote condensing unit.	DOE appreciates the stakeholder's support.
2	Section 4	Variable Purge Settings		One stakeholder commented that they agreed with DOE's proposal to set the Variable Purge Setting according to AHRI 810-2007 (as-shipped).	DOE appreciates the stakeholder's support.
