Subject: Comments on ENERGY STAR Commercial refrigerator and freezer version 3.0

Dear Mr. Kent,

H&K welcomes EPA's Draft 2 adjustment on proposed maximum daily energy consumption (MDEC) performance criteria in an effort to improve selection of ENERGY STAR refrigerators and freezers in key sub-categories, and to improve continuity of the performance curves. These are now make perfect sense and more rationally reflect the volume – energy consumption level relation.

Look forward to the final draft.

Sincerely yours,

Mike Ren

Senior Refrigeration Engineering
