

Hi,

I would like to inform EPA that Hydro-Quebec strongly support your proposal to change the effective date for the ENERGY STAR Version 5 television specification to July 1, 2011 from the current date of May 1, 2012. Hydro-Quebec is currently supporting the Energy Star Version 5 for television with a financial assistance and promotional in POP to retailers. Hydro-Quebec plan to upgrade his financial assistance to 6.0 in the next months. TV market in the province of Quebec represent a market over 900 K sales/year through 2015.
