

Email received on June 19, 2010 from Edi Chang.

**Dear Sir.**

**Please be accepting my suggestions into second draft of luminaires specification V 1.0 as following:**

**In page 12 Luminous Efficacy Requirements: Directional Luminaires  
Downlights: 42 LPW**

**In some place of Required Documentation,**

**Please move forward added that RLF V 4.2 language all about Table 1, ICAT recessed downlight requirement, and Table 1A Retrofit recessed downlight Kit requirement.**

**And shall have :**

**The ICAT recessed must be design has life-time Air-tight to meet ASTM-283, it would never have leak once re-lamp, ballast replace or any fix.**

**c.c. To: Energy Star Lighting Manager  
Mr. Baker**

**Best regards**

**Edi Chang  
RLF V4.2 Partner**
