

Email received on June 21, 2010 from Jim Broughman.

Looking at the draft, I don't see **Landscape Lighting** listed. I want to make sure this product category is included. We already have one LED flood light that is certified, and are working on more. Lowe's was first to market with a LED landscape lighting program that had comparable light output to incandescent, at significant cost. So I want to make sure we don't lose the opportunity to achieve our goal of Energy Star certification after all the effort and expense.

Thanks,

Jim Broughman
