

## Award Recipient of the ENERGY STAR Challenge for Industry

### **Pella Corporation – Wylie Operations**

933 Hensley Ln  
Wylie TX, 75098

The Pella Corporation – Wylie Operations facility was built in 1999 as part of MAI Doors new manufacturing and office location. In 2007, Pella Corporation purchased MAI to expand its market into the wood entry door business. Pella Corporation continues to produce and sell these crafted hardwood entry doors which are produced at the Wylie facility.

The Pella Corporation – Wylie Operations Plant achieved the ENERGY STAR Challenge for Industry in 2016. The plant reached a 19.2% reduction in energy intensity within one year of establishing its baseline. The Plant achieved the Challenge through lighting improvements, increased HVAC controls and setbacks, and improved system shutdown procedures. Overall, Pella Corporation – Wylie Operations has reduced source energy intensity by 190 kBtu per unit manufactured. This has resulted in energy savings of over 960 MMBtu in fiscal year 2016.

Pella Corporation maintains a comprehensive corporate energy management program. Under this program, Pella Corporation has progressively applied good energy practices promoted by ENERGY STAR including goal setting, energy benchmarking, tracking and continuous improvement practices related to energy efficiency.
