A NEW BUILDING FOR THE
Community Church Unitarian Universalist
NEW ORLEANS, LA

The Community Church Unitarian Universalist features a contemporary aesthetic on both the interior and exterior, reflecting the contemporary principles upheld by the congregation. The building uses large windows to allow for natural light, energy-efficient lighting and mechanical systems, and spray-foam insulation to reduce energy consumption and operating costs.

Building Type: House of Worship
Total SF: 4,221 SF
Energy Cost/SF: $0.67/SF
Site Energy Use Intensity: 24 kBtu/sf/yr
Source Energy Use Intensity: 80 kBtu/sf/yr
